TEXAS DEPARTMENT OF PUBLIC SAFETY  
ORDER ADOPTING A RULE

On February 13, 2014, the Public Safety Commission (the commission) by majority vote approved rules concerning:

Organization and Administration  
Title 37 T.A.C. Part I, Chapter 1  
Subchapter H  
Section 1.111

The Texas Department of Public Safety (the department) adopts amendments to Section 1.111, concerning Ten General Orders. These amendments are adopted without changes to the proposed text as published in the December 27, 2013 issue of the *Texas Register* (38 TexReg 9452) and will not be republished.

Amendments to this rule were necessary to reflect current policy in use by the department.

No comments were received regarding the adoption of these amendments.

This adoption is made pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work, and Section 2001.039, which requires state agencies to review their rules and readopt, readopt with amendments, or repeal a rule as the result of reviewing the rule under this section.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Public Safety Commission

TEXAS DEPARTMENT OF PUBLIC SAFETY  
ORDER ADOPTING A RULE

On February 13, 2014, the Public Safety Commission (the commission) by majority vote approved rules concerning:

Organization and Administration  
Title 37 T.A.C. Part I, Chapter 1  
Subchapter J  
Section 1.143

The Texas Department of Public Safety (the department) adopts new Section 1.143, concerning Use of Unmanned Aircraft by a Law Enforcement Authority. This new section is adopted without changes to the proposed text as published in the November 8, 2013 issue of the *Texas Register* (38 TexReg 7925) and will not be republished.

The 83rd Legislative Session enacted House Bill 912 which created Texas Government Code, Chapter 423, the Texas Privacy Act. Texas Government Code, Section 423.007 authorizes the department to adopt rules and guidelines for use of an unmanned aircraft by a law enforcement authority in Texas. This proposal was necessary to establish those guidelines.

The department accepted comment on the proposed rules through December 9, 2013. Written comments were submitted by Will Johnson, Police Chief of the City of Arlington. Substantive comments received, as well as the department's responses, thereto, are summarized below:

COMMENT: The City of Arlington recommends that one point-of-contact with the executive branch and one point-of-contact with the legislative branch be established and that electronic reporting be acceptable. Additionally, the City of Arlington recommended a standardized form for law enforcement agencies to complete and submit.

RESPONSE: Department staff does not believe the comment recommendation can be implemented under the new law and therefore cannot agree to the recommendation. Staff interprets the new statute to require law enforcement agencies to individually submit required reports to the governor, lieutenant governor, and legislators.

This adoption is made pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work; and Section 423.007 which authorizes the department to adopt rules and guidelines for use of an unmanned aircraft by a law enforcement authority in Texas.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Public Safety Commission

TEXAS DEPARTMENT OF PUBLIC SAFETY  
ORDER ADOPTING A RULE

On February 13, 2014, the Public Safety Commission (the commission) by majority vote approved rules concerning:

Public Safety Communications  
Title 37 T.A.C. Part I, Chapter 9  
Subchapter F  
Sections 9.61 – 9.68

The Texas Department of Public Safety (the department) adopts proposed new Sections 9.61 – 9.68, concerning State Amateur Radio Operator Service. These rules are adopted without changes to the proposed text as published in the December 27, 2013 issue of the *Texas Register* (38 TexReg 9453) and will not be republished.

Amateur radio operators are often needed to assist in communications in an emergency. There was no mechanism to allow state employees who are amateur radio operators to take paid leave in order to assist in disaster response operations as there is for other needed state employees. In response, Texas Government Code, Section 661.919 authorizes state employees who are amateur radio operators to, with certain limitations, take leave in order to participate in disaster relief operations with the approval of their supervisor and the governor. A maximum of 350 state employees may be granted a maximum of 10 days of leave with pay per year to participate in disaster response operations, within the State of Texas. This proposal is necessary to establish the guidelines for this service.

No comments were received regarding the adoption of these rules.

This adoption is made pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Public Safety Commission

TEXAS DEPARTMENT OF PUBLIC SAFETY  
ORDER ADOPTING A RULE

On February 13, 2014, the Public Safety Commission (the commission) by majority vote approved rules concerning:

Driver License Rules  
Title 37 T.A.C. Part I, Chapter 15  
Subchapter I  
Section 15.142

The Texas Department of Public Safety (the department) adopts amendments to Section 15.142, concerning Agreement to Purchase Driver Record Information. Amendments to this section are adopted without changes to the proposed text as published in the November 8, 2013 issue of the *Texas Register* (38 TexReg 7926) and will not be republished.

The 81st Texas Legislature enacted House Bill 2730 which added Texas Transportation Code, Section 521.060 and the 82nd Texas Legislature enacted House Bill 2657, which renumbered Section 521.060 to Section 521.062, allowing the department to establish a driver record monitoring pilot program by rule for a period not to exceed one year. The amendments to this rule establish the department's intent to initiate a pilot monitoring program with up to three persons eligible pursuant to Texas Transportation Code, Section 521.062(b). All requirements relating to privacy and the release of information are contained within the statute. If the department determines that the program will be recommended as a permanent program, a formal report will be prepared and submitted to the lieutenant governor, the speaker of the house of representatives and each member of the legislature in accordance with Texas Transportation Code, Section 521.062(m), prior to a request being submitted to the Public Safety Commission. This rule will then be modified to accommodate a permanent program.

No comments were received regarding the adoption of these amendments.

This adoption is made pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work and Texas Transportation Code, Section 521.062(a), which authorizes the department to establish by rule a driver record monitoring pilot program.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

A. Cynthia Leon, Chair  
Public Safety Commission

TEXAS DEPARTMENT OF PUBLIC SAFETY  
ORDER ADOPTING A RULE

On February 13, 2014, the Public Safety Commission (the commission) by majority vote approved rules concerning:

Driver License Rules  
Title 37 T.A.C. Part I, Chapter 15  
Subchapter C  
Section 15.61

The Texas Department of Public Safety (the department) adopts new Section 15.61, concerning Third Party Skills Testing. This new section is adopted with changes to the proposed text as published in the December 27, 2013 issue of the *Texas Register* (38 TexReg 9454) and will be republished.

The 83rd Texas Legislature amended Transportation Code, Section 521.165, which authorizes the department to permit third parties to administer the skills test for a driver license on the department's behalf. The new rule creates a program wherein the department may enter into Memorandum of Understanding (MOU) with certified driver education schools to perform the testing under certain circumstances.

The department accepted comments on the proposed rules through January 27, 2014. Written comments were submitted by Patrick Barrett representing Driver Ed in a Box, Gary King representing the Texas Professional Driver Education Association, Dee Conrad representing herself as an owner of a driver education school, and Bob Kamm representing I Drive Safely. Changes were made to proposed new Section 15.61(c)(4) based on the comments received by the department. Substantive comments received, as well as the department's responses, thereto, are summarized below:

COMMENT: Regarding Section 15.61(c)(4), Bob Kamm objected to the requirement that an instructor never have been convicted of Driving while intoxicated (DWI) or Driving under the influence (DUI) because TEA certification allows an instructor to have such convictions as long as it is not within seven years. He indicated this will put a lifetime ban on an instructor becoming an examiner and does not allow rehabilitated individuals to become examiners.

RESPONSE: The department agrees with this recommendation. The department may employ a person if he or she had one of the referenced convictions prior to employment so this requirement would be holding instructors to a higher standard than is applied to department employees. The department changed the wording in Section 15.61(c)(4) to mirror Texas Education Agency (TEA) standards, Has not been convicted of: (C) Driving while intoxicated within seven years; or (D) Driving under the influence within seven years.

COMMENT: Regarding Section 15.61(b)(3), Gary King objected to the requirement to teach the Impact Texas curriculum because it will require the authorized entities to add a new element to the state approved driver education curriculum. He stated that the change would be expensive to

schools using their own proprietary curriculum due to the addition and removal of materials and requirement for approval by TEA. Additionally, he stated that there is no corresponding statute that will guide implementation standards for the new curriculum thereby creating multiple requirements and questions to comply.

**RESPONSE:** The department disagrees with this recommendation. The Impact Texas curriculum is not being incorporated into the current TEA approved courses, but will be taught in addition to the current requirements. It will not require removal or addition of current materials or reapproval by TEA. Additionally, the statute allows the department to set the standards by which an authorized entity may administer the skills test, so it is authorized by Transportation Code, Section 521.165 to set the requirements to participate in the program.

**COMMENT:** Regarding Section 15.61(b)(3) concerning teaching the Impact Texas curriculum, Bob Kamm suggested adding (d) to clarify that the curriculum will be taught to all applicants regardless of age.

**RESPONSE:** The Impact Texas curriculum, formally called Impact Texas Teen Drivers, will be applicable to drivers of all ages. However, the MOU is being developed to initially implement the program on a limited basis for applicants under 18 years of age to ensure its success. The department will expand the program to adults in the future and those details will be included in the MOU. The department needs the ability to work with the authorized organizations to ensure that all parties are satisfied with the program requirements before it is expanded to include all persons required to pass a skills examination before being issued a driver license. This falls in line with the department's duty to ensure highway safety.

**COMMENT:** Regarding Section 15.61(b)(4), Gary King objected to the MOU reference because the MOU has not been made available for review at this time.

**RESPONSE:** The department disagrees with this recommendation. The MOU is currently in development and a focus group, consisting of driver education providers, will be convened to review the draft and solicit input and comments regarding the terms of the MOU. No entity will be required to sign the MOU without the opportunity to review the agreement.

**COMMENT:** Regarding Section 15.61(c)(2), Gary King objected to the requirement that a driver education instructor hold an instructor license issued by TEA for two years prior to administering skills tests because it restricts the authorized organization from using its employees as it sees fit. He also states that instructors receive extensive training and TEA approval and will receive the department's skills test training so this requirement is restrictive and causes unnecessary burden on the organization. Patrick Barrett also objects to this requirement because he believes this is over and above what is required of department employees and this restriction will make it difficult to hire additional staff to participate in the program.

**RESPONSE:** The department disagrees with this objection. The department is responsible for highway safety and its employees undergo extensive training before being allowed to administer skills examinations. Additionally, the department is working with the American Association of Motor Vehicle Administrators (AAMVA) to have its skills examination program certified by the

association, which will require at least one year of employment prior to administering exams. Since department employees are in the driver license issuance and testing environment daily and are observed and mentored by seasoned driver license customer service representatives and supervisors prior to being allowed to administer examinations on their own, this requirement is not onerous for the organizations or instructors.

This section is adopted pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work; and Texas Transportation Code, Chapter 521.165, which authorizes the department to delegate the administration of skills examinations to authorized third parties.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Crime Records  
Title 37 T.A.C. Part I, Chapter 27.42  
Subchapter D  
Section 27.42

The Texas Department of Public Safety (the department) adopts amendments to Section 27.42, concerning Criteria for Entry into the Missing Persons Bulletin. Amendments to this section are adopted without changes to the proposed text as published in the November 8, 2013 issue of the *Texas Register* (38 TexReg 7927) and will not be republished.

This rule relates to the acceptable documentation a law enforcement agency must possess before information on a missing or unidentified deceased/living person can be entered into the Texas Department of Public Safety Missing Persons Online Bulletin. The amendments are necessary because the bulletin is now published online, updated as necessary, and therefore agencies may submit entries at any time.

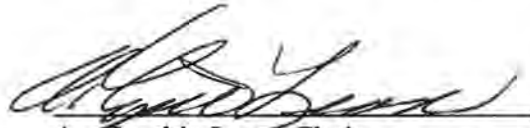

No comments were received regarding the adoption of these amendments.

This adoption is made pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

A handwritten signature in black ink, appearing to read 'A. Cynthia Leon', is written over a horizontal line.
