Ms. Kathy Walt  
Chief of Staff  
Office of the Governor  
P.O. Box 12428  
Austin, Texas 78711

Dear Ms. Parks and Ms. Walt:

Pursuant to G.A.A. 83rd Texas Legislature R.S. Article IX, Section 6.10(b)(2), the Department of Public Safety (DPS) requests permission to exceed its employment cap of 9,165.3 full time equivalent employees (FTEs) by 300 FTEs or 3.2%. Successful recruiting efforts and reduced attrition have put DPS on the path to fill commissioned positions. As of February 2014, commissioned vacancies are 215 (including current recruits) and DPS anticipates vacancies to be approximately 124 at the end of the biennium (see attached chart.)

DPS has relied on commissioned vacancies for the past five years or more to fill non-commissioned positions that support troopers, agents and rangers as well as DPS’ licensing programs. In order to provide the maximum service to the state and following legislative guidance, DPS extended driver license office hours in the busiest offices across the state. This could not be done with adding to then existing resources; 132 employees were hired to staff extended hours offices. Additionally, 127 hourly employees were hired to support peak demand times and fill in when other staff absences and vacancies occur. These strategies have helped keep average wait times for renewal and duplicate transactions at 30 minutes or less in many of our largest offices. There are still some parts of the state where average wait times exceed 30 minutes; additional offices and FTEs are needed to address the ever growing demand for service in these areas. See attached charts on driver license wait times and the impact of these changes.
DPS has also authorized 61 additional staff in Regulatory Services (concealed handgun, vehicle inspections, controlled substances, metals and private investigators licensing) and the Rangers' Border Security Operations Center. These functions were previously staffed with contract workers. The agency could not continue to foot the high price of contract workers and maintain the necessary staffing levels to provide service. Contract staff budgets were converted to employee salaries.

As stated above, DPS requests permission to exceed its cap by 300 FTEs; 96 of these FTEs were eliminated during the 83rd Texas Legislature, R.S. when Driver License Improvement Plan funding was restored. Authorizing the additional FTEs means expanded service to driver license customers and cost efficient operations in Regulatory Services and the Border Security Operations Center.

Below is the specific data elements prescribed in the GAA:

Date approved by the Public Safety Commission:  April 10, 2014
Statement of justification: DPS is using every opportunity to expand delivery of driver license services to the state and reduce wait times. It is not cost efficient to hire contract labor to staff Regulatory Services and Border Security Operations Center; DPS has now staffed these positions with employees.
Source of funds: DPS used existing appropriations for each of these divisions to fund the changes.
Why functions cannot be performed with existing staffing levels: Customer volume for DPS licensing programs continues to grow and demand more resources to provide acceptable service levels. 111 FTEs were removed from DPS' cap during the 83rd Regular Session and this has added to the FTE cap strain. DPS has tried to stretch resources to meet customer demand by borrowing vacant law enforcement positions. This is no longer an option as DPS is filling law enforcement vacancies.

Thank you in advance for consideration of this request to exceed our FTE cap. Please feel free to contact Cheryl MacBride 512.424.2604 cheryl.macbride@dps.texas.gov or Denise Hudson 512.424.7123 denise.hudson@dps.texas.gov if you need further information. Thank you for your consideration of this request.

Sincerely,

Steven C. McCraw

FTE Proposal:
Increase FTE cap for Driver License Division by 400 FTEs

Bottom Line Up Front: This FTE proposal will require zero additional funds to DL's operating budget.

1. Currently, 132 FTEs are assigned to Mega Centers and large offices to support extended hours—a directive from Legislators and DPS leadership. Extended hours provide customers more flexibility to conduct business at a DL office. In the offices where additional FTEs are assigned, those offices have been able to meet the LBB performance target of 30 minute wait times for renewals and replacement transactions. The FTEs have made a huge impact where they are assigned and therefore should be permanently added to DL’s FTE cap.

### Notes:
1. Based on trends from May 12 - Aug 12, additional FTEs were "loaned" to DL to support extended hours.
2. Extended hours were implemented in two phases: 62 additional FTEs were hired and employed by Nov 2012, and 70 additional FTEs were hired and employed by March 2013.
3. The positive and dramatic effect is reflected in the table above: between Dec 12 and May 13 all locations with additional FTEs met wait time targets for renewal and replacement transactions.
2. Currently, 127 FTEs are used to support DL’s Hourly Employee work force. Each of these FTEs support two part-time CSRs, enabling DL Managers and Supervisors to rely on up to 254 additional CSRs to support peak season customer demands. The Hourly Employees typically work in DL offices during summer months, Thanksgiving Holiday week, Christmas and New Year’s Holiday period, and during established Spring Breaks set by school districts in their regions. The DL office supervisors have grown reliant on the “surge” capacity to support high transaction volume periods. The distribution of these 254 positions is state wide. For the large offices and Mega Centers, the hourly work force is reflected in the table above.

3. The Customer Service Center requires 107 FTEs to be added to DL’s FTE cap. Ninety-six (96) of the 107 FTEs are reinstated structure that was removed during last session. Eleven (11) of the 107 FTEs are currently assigned to the CSC as augments to support the high call volume. The CSC is a valuable element of serving customers, and DL will seek additional FTE structure to the CSC as an exceptional item for the next session. For now, DL allocates 121 FTEs to the Customer Service Center – only 14 of which are authorized to DL within the current FTE cap, and 107 are “loaned” from the Agency.

Proposed Evaluation Process of Positions Reporting
Directly to the Public Safety Commission

Statutory Background

Three positions within the Department are appointed by and report directly to the Public Safety Commission. See Texas Government Code § 411.005 regarding the Director, Texas Government Code 411.254 regarding Inspector General and Texas Government Code 411.242 regarding Chief Auditor.

The Commission has not formally established an evaluation process for these positions. The following is a proposal for discussion purposes regarding the establishment of such a process.

Proposed PSC Direct Report Evaluation Procedure

a. The Public Safety Commission will conduct annual evaluations of the Director, the Inspector General and the Chief Auditor. Employee performance will be evaluated on the basis of a calendar year and a completed performance evaluation form will be presented to the employee as soon as practical after the end of each annual evaluation period.
b. The Commission will use the Performance Evaluation form used for department supervisors as referenced in Chapter 7 of the DPS General Manual. (Form PEP-0002E, See attached.)
c. The Chairman of the Public Safety Commission will prepare a draft evaluation of each employee to be presented to the Public Safety Commission for purposes of deliberation. As a personnel matter this matter may be taken up by the Commission in a closed session. See Texas Government Code § 551.074.
d. After the Commission’s deliberations the Chair will prepare a final evaluation. If they choose, individual Commissions may prepare addendums to be attached to the final evaluation. The Chairman will sign the performance evaluation form and individual commissioners will sign addendums, if any.
e. The final evaluation with addendums will be presented to and discussed with the employee. As a personnel matter this matter may be taken up by the Commission in a closed session. See Texas Government Code § 551.074.
f. Employees may provide a written rebuttal or explanation to the Commission. The final evaluation with addendums and any rebuttal will be maintained in the employee’s personnel file.
g. The employee evaluation process including drafting, deliberation and presentation to the employee may occur over the course of multiple Public Safety Commission meetings.
h. Nothing in this procedure creates an enforceable right in any employee and each PSC direct report serves at the pleasure of the Public Safety Commission.

General Counsel

The position of General Counsel will be evaluated annually by the Director. The Director will seek individual input from Commissioners to include in the evaluation. Commissioners may provide an individual addendum to the Director to be included in the evaluation of the General Counsel.

Comments:

Parameters for Overall Performance Rating
1. An Ineffective rating for any job skill requires an overall Ineffective rating.
2. An Marginal rating for any job skill requires an overall Marginal rating (unless #1).
3. The same rating in greater than 50% of total job skills requires that rating as the overall rating (unless #1 or #2).
4. When there is no majority in any one rating category, the rating that represents the average should be selected (unless #1 or #2) (Ex: three Exemplary/two Skilled/four Competent, equals an overall Skilled rating). If the average is exactly halfway between two categories, the lower category should be selected (unless #1 or #2) (Ex. five Skilled/five Competent, equals an overall Competent rating).
