**TEXAS DEPARTMENT OF PUBLIC SAFETY
ORDER ADOPTING A RULE**

On January 7, 2003, the Public Safety Commission (Commission) by majority vote approved rules concerning:

**Commercial Drivers License
Title 37 T.A.C. Part I, Chapter 16
Subchapter A
Section Number 16.9**

The Texas Department of Public Safety adopts the repeal of Section 16.9, relating to Licensing Requirements, Qualifications, Restrictions, and Endorsements, without changes to the proposed text as published in the August 16, 2002, issue of the Texas Register (27 TexReg 7372).

The repeal of Section 16.9 is necessary due to substantive changes having been made concerning Licensing Requirements, Qualifications, Restrictions, and Endorsements for Commercial Driver License applicants. Adoption of the repeal is filed simultaneously with an adoption for new Section 16.9 which provides for a vision and limb intrastate waiver program for Texas that is consistent with federal standards and guidelines.

No comments were received regarding adoption of the amendments.

The repeal is adopted pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work and Texas Transportation Code, Section 522.005.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the Commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Colleen McHugh, Chairman
Public Safety Commission

**TEXAS DEPARTMENT OF PUBLIC SAFETY
ORDER ADOPTING A RULE**

On January 7, 2003, the Public Safety Commission (Commission) by majority vote approved rules concerning:

**Commercial Drivers License
Title 37 T.A.C. Part I, Chapter 16
Subchapter A
Section Numbers 16.8, 16.9 and 16.14**

The Texas Department of Public Safety adopts new Section 16.9 and amendments to Section 16.8 and Section 16.14, concerning Licensing Requirements, Qualifications, Restrictions, and Endorsements, with changes to the proposed text as published in the August 16, 2002, issue of the Texas Register (27 Tex. Reg. 7369) and will republish them.

New Section 16.9 adds language providing for a vision and limb intrastate waiver program for Texas that is consistent with federal standards and guidelines.

Amendment to Section 16.8 adds a note referring applicants not meeting required physical requirements for interstate commercial driver license operations to Section 16.14 for waiver requirements for interstate operation.

Amendment to Section 16.14 changes the title of the section.

Written comments were received by the department through September 16, 2002 from the following individual: Chris Carthel, BWXT Pantex.

The substantive comments as well as the department's responses thereto, are summarized below:

COMMENT: The department was not consistent in the use of federal terminology when referring to interstate vision exemptions and limb skill performance evaluation certificates.

RESPONSE: In Section 16.8(c) we find that we were not consistent in the use of terminology and have made the appropriate changes.

COMMENT: The usage of the term "waiver" concerning the intrastate vision program is misleading and inconsistent with the federal terms.

RESPONSE: The department's vision and limb programs are modeled following the federal physical requirements. The department continues to use the term waiver in an effort to distinguish the federal and state programs from each other. We feel that this will assist enforcement personnel in determining which program the CDL holder has been granted authority to operate. No changes were made as a result of this comment.

COMMENT: The Federal Motor Carrier Safety Administration published a final rule on July 31, 2002 which revised the disqualification sanctions found in 49 CFR 383.5 and 383.51.

RESPONSE: At the time these rule changes were proposed, the new federal regulations had not been posted. At this time the department does not have statutory authority to include the new disqualification actions regarding these offenses when operating a non-CMV. Due to the lack of statutory authority to implement all portions of the new federal regulations, the department has determined that the corresponding Transportation Code should be the appropriate cite. Also, by citing the Transportation Code, this rule will not require amendment when statutory authority is received for the new disqualification actions. No changes were made as a result of this comment.

COMMENT: The department uses the term "conviction" when the federal regulation uses "violation".

RESPONSE: The department does not have statutory authority to act on a violation until it has been adjudicated as a conviction. No changes were made as a result of this comment.

COMMENT: Inclusion of the word "waiver" in the title for Section 16.14 is inconsistent with the section's discussion of federal SPE certificates.

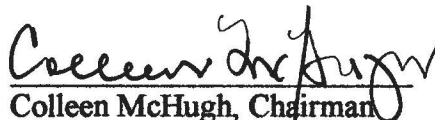

RESPONSE: The department agrees with this recommendation and has made that change.

The amendments and new section are adopted pursuant to Texas Government Code, Section 411.004(3), which authorizes the Public Safety Commission to adopt rules considered necessary for carrying out the department's work and Texas Transportation Code, Section 522.005.

This agency hereby certifies that the adoption has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

The effective date of the rules is 20 days after the rules are filed with the Texas Register Division, Office of the Secretary of State.

This order constitutes the order of the Commission required by the Administrative Procedures Act, Government Code, Section 2001.033.

Colleen McHugh, Chairman
Public Safety Commission
